What we do matters in the fight against COVID19

If we do this. . .

- ✓ Wear a mask properly every time we go out
- ✓ Stay home unless necessary
- ✓ Stay home when we're sick, waiting for a test result, or have COVID19
- ✓ Social distance
- ✓ Wash our hands and sanitize objects frequently
- ✓ Stay home when we are quarantined

Then this happens . . .

Activities continue Businesses thrive
 Cases go down
 Schools stay open Holidays are happier
 People stay healthy

If we do this. . .

- ✗ Gather at parties or other events
- ✗ Go to work or school while waiting on test results
- ✗ Go to work or school sick
- ✗ Go to work or school when you have been exposed
- ✗ Refuse to help with contact tracing
- ✗ Refuse to get tested when you are sick
- ✗ Wear your mask under your nose or chin, or not at all
- ✗ Go to work or school when you have tested positive

Then this happens . . .

Businesses close Cases go up Activities stop
 People get sick Schools close
 2021 is more of the same

Stop the spread of COVID19
